EContra™ EZ

(Levonorgestrel Tablet, 1.5 mg)

Important Safety Information

USAGE

EContra™ EZ (Levonorgestrel 1.5 mg tablet) is a progestin-only emergency contraceptive for use in women 17 years of age and older to reduce chance of pregnancy after unprotected sex (if contraceptive failed or birth control not used). EContra™ EZ is not intended to be used in place of routine birth control.

WHO SHOULD NOT USE ECONTRA™ EZ

Women who are known to be pregnant as it will not work. However, EContra™ EZ will not harm an existing pregnancy.

Women known to be allergic to Levonorgestrel

SIDE EFFECTS MAY INCLUDE:

- Menstrual changes. After EContra™ EZ women may experience heavier or lighter bleeding. If the next period is more than a week late, consider pregnancy.
- Abdominal pain. Ectopic pregnancy should be considered in cases of severe abdominal pain.
- Nausea or vomiting. If women vomit within 2 hours of taking the medication, consider recommending a second dose.
- Tiredness
- Headaches
- Dizziness
- Breast Pain
